

ECOROL⁺

LUXURY VINYL SHEET

NOX Roll Sheet Collection

1.8T

World's First
Premium LVS flooring

Qualities of ECOROL+

1st

More Advanced! More Innovative!

Developed by NOX, Global Flooring Innovation Leader

NOX is a professional flooring company that has been leading innovation for global LVT customers. Developing premium products that are highly recognized by customers, designers, and architects across the industry, NOX is currently exporting to over 50 countries and has a leading market share in global markets such as Germany, United Kingdom, France, Japan, and the United States.

More Solid, NOX EMT™ Core Multi-Layer Structure

Applying NOX EMT™ Core multi-layer structure, which has already proven its performance across the global market, NOX ECOROL+ ensures strong durability, dent resistance, and excellent constructability with enhanced floor adhesion. Further, the consistency in product thickness eliminates differences in floor height.

Cleaner, More Luxurious!

NOX EPT™ Shield Premium Natural Matte Coating

Applying NOX's own EPT™ Shield surface coating that is easy to clean and resistant to scratches, dents, discoloration and contamination, NOX also applied 'Premium Natural Matte' for the first time in the industry to develop unprecedented sheet flooring.

Quieter, Better Resistance to Noise

NOX EMT™ Core SoundProtec Technology

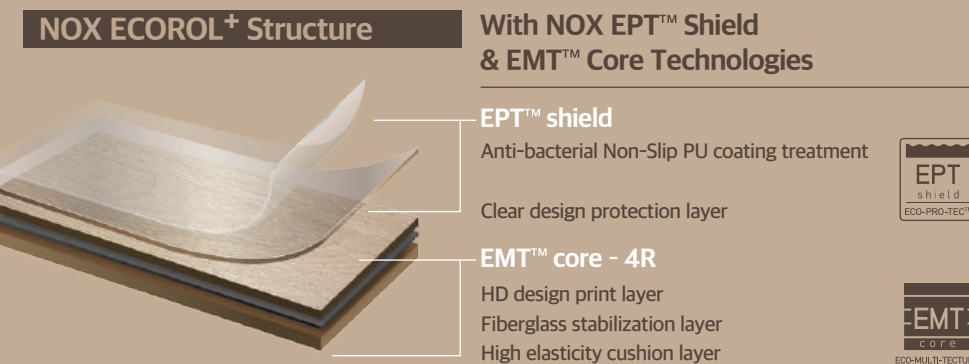

NOX ECOROL+ structure consists of a high density cushion layer made with NOX EMT™ Core SoundProtec Technology. This elastic cushion layer provides not only excellent foot comfort, but also impact absorption that reduces noise.

More Realistic, World's First Embossed-In-Register

More Natural, 'GRANDE Design' like Solid Wood Floorings

NOX's Embossed-In-Register makes available highly realistic designs that closely resemble the original material's texture: wood grain, tile grout lines, fabric texture, etc. (Applicable to 2.2T and thicker) With enlarged wood planks, 'GRANDE Design' adds a spacious effect.

2nd

Qualities of ECOROL+

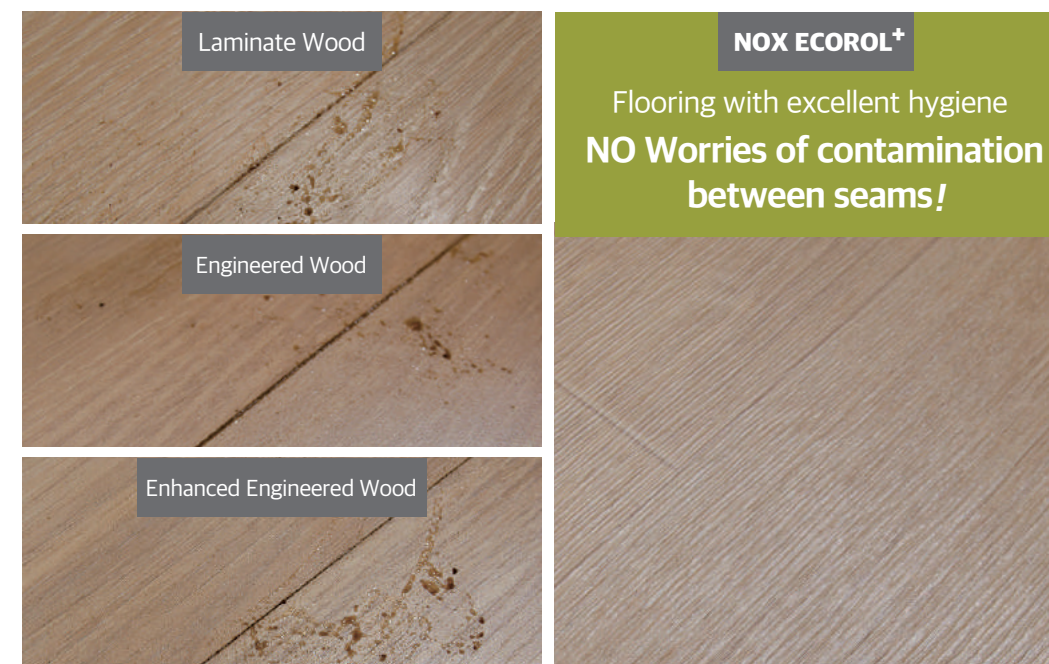

Cleaner, More Luxurious!

01 — EPT™ Shield Premium Natural Matte Coating

With NOX's own EPT™ Shield surface coating, no worries regarding moisture, discoloration, contamination, scratches, or dents are necessary. NOX is the first in the industry to apply 'Premium Natural Matte' coating, ensuring long-lasting luxurious texture without losing clarity in design.

02 — Easier Cleaning & Maintenance

ECOROL+ is highly resistant to external contamination between seams.

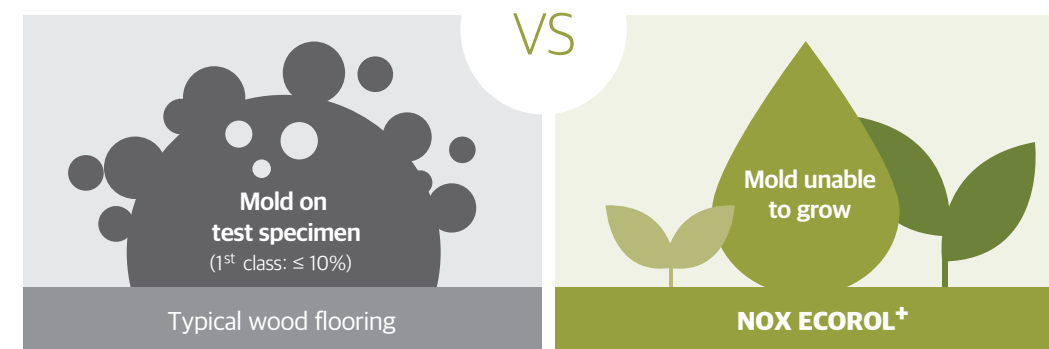

02

03

03 — Eco-friendly Flooring with Perfect Hygiene

ECOROL+ is eco-friendly, hygienic flooring that is mold resistant and free of phthalate and heavy metals.

Qualities of ECOROL⁺

3rd

Safer, Healthier!

01 — Safe & Eco-friendly Flooring

NO Phthalate Plasticizers! NO Heavy Metal Contents!

With the use of eco-friendly plasticizers, all NOX floorings have received eco-friendly certifications.

02 — Safe for All Family Members

Prevent Pets' Patellar Dislocation

Protect the Elderly's Knee Joints

Decrease Children's Risk of Injuries

03 — Slip Resistance Test Results

What is Slip Resistance?

Non-slip surface coating guarantees safety. Flooring with a higher slip resistance coefficient is more slip-resistant.

Laminate / Enhanced Engineered Wood

0.39

NOX ECOROL⁺**1.5 times higher**

than typical wood flooring

0.6

- ※ Test Center : Korea Conformity Laboratories (KCL)
- ※ Test Standard : KS M 3510, KS M 3802
- ※ Test Value : Coefficient of slip resistance (C.S.R · B)
- ※ Test Condition : Barefoot, wet surface (water sprayed in 400g/m² proportion)
- ※ Test results may differ by emboss type

Qualities of ECOROL⁺

4th

More Realistic, More Natural!

01 — More Reality, World's First Embossed-In-Register

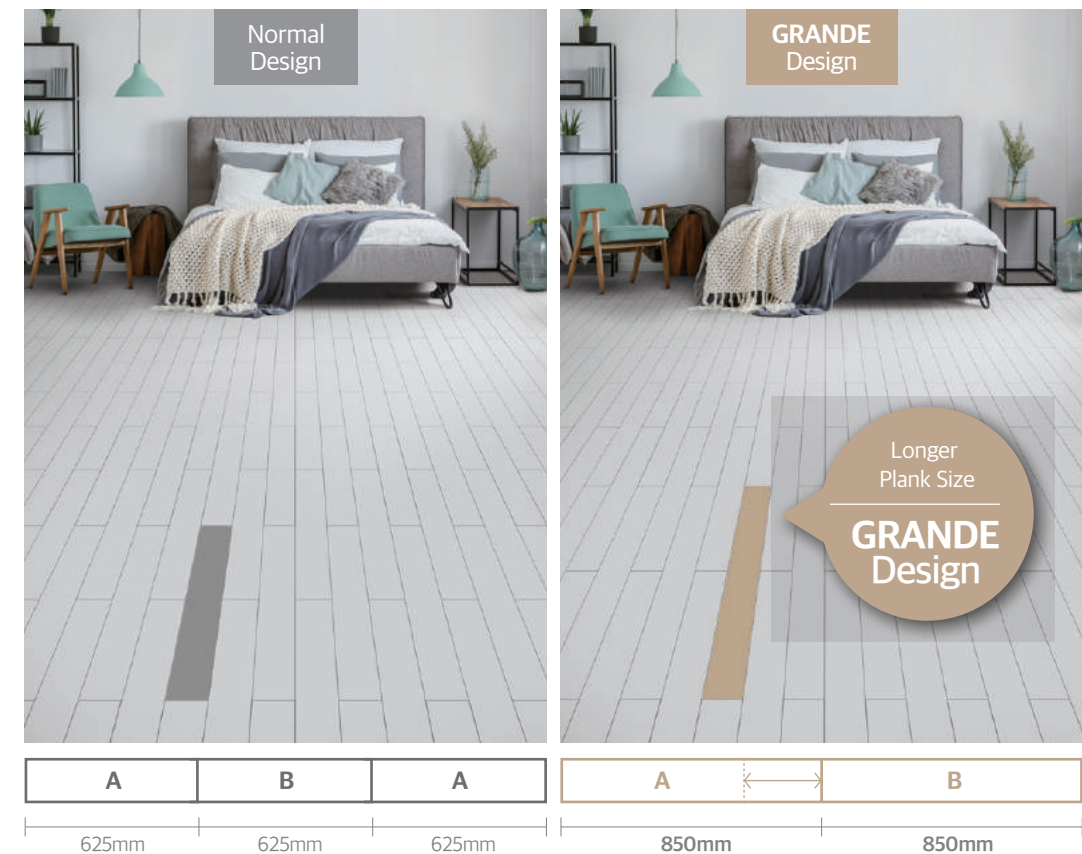

With NOX's Embossed-In-Register applied, ECOROL⁺ has highly realistic designs that closely resemble the original material's texture: wood grain, tile grout lines, fabric texture, etc. (Applicable to 2.2T and thicker)

02 — More Unique, State-of-the-Art Designs

Through this ECOROL⁺ collection, NOX's In-house global design team introduces unique designs - the first terrazzo design for sheet flooring, differentiated versions of natural material designs, such as herringbone wood, ceramic tile, bianco carrara, and more.

03 — More Natural, 'GRANDE Design' like Solid Wood Floorings

Apply 'GRANDE Design' to give a spacious effect with enlarged wood planks. NOX's Embossed-In-Register adds further reality in material texture with emboss that closely fits the design.
